

Take Advantage of Sales Tax Certificates

Did you know that most states offer some kind of tax relief on certain paper & disposable types of items?

These are considered exempt from being taxed, if a **Sales Tax Certificate** has been filled out and filed with your supplier of choice. Typically, these would include to-go paper and disposable products like to-go containers, to-go bags, paper/plastic cups, napkins and cutlery kits.

Many suppliers will have the customer fill out a Sales Tax Certificate when setting up a new account. Be sure to ask your supply partner to inform you of all items that are considered exempt in your state

To further investigate, visit your state's website and learn what items they consider exempt. Also, make sure to check in with your existing supply partner to ensure that your Sales Tax Certificate is on file in their system.
